Since 2001 the Amsterdam Historical Museum has advertised on a minicard.

We are one of the first few advertisers who joined minicards and we have never regretted it. The cooperation with Minicards gives every satisfaction and the response to advertising via Minicards in the hotels and other outlets is good. That is the reason why we like to continue time and again our yearly contract with minicards and can - with confidence - advise anybody else to enter into such an agreement as well.

Your Sincerely,
